

CAPACITORS RESISTORS CIRCUIT PROTECTION FREQUENCY CONTROL
ELECTROMAGNETICS ELECTROMECHANICAL

Founded in 1987...

DMTL has developed into a global provider of passive components, offering design support to UK designers and engineers across all sectors and industries. Supporting a wide range of advanced components, which include capacitors, resistive products, circuit protection, frequency control, electromagnetics and electromechanical, our commitment is to provide truly effective application solutions.

Our Applications Team should be looked upon as a resource to expand your company's field of knowledge and protect/enhance the future of your products. Where new components are introduced by manufacturers, DMTL ensures access to technical information and sampling routes in order to provide you with a superb support service.

Finally, as an AS9120 / IECQ-CECC accredited company, DMTL ensures that all products provided meet your required standards. Our partnerships with blue chip manufacturers guarantee the quality of our products and our willingness to invest in supply chain solutions, in support of your projects, guarantees the reliability of your supply.

DMTL hold AS9120, IECQ-CECC and BS9000 approvals to ensure that full traceability of all components is assured. Our bespoke stock control system holds all manufacturers' date codes, lot codes and country of origin from receipt of item, whether you require this information or not. This information can then simply be provided on a unique DMTL C of C which can accompany the original Manufacturers C of C, upon your request.
